

# Fund Evaluation Criteria

## Clinical Fellowships

### Evaluation Criteria

1	Does the research proposal address a health or health care delivery issue that is relevant to a significant portion of the New Brunswick population?
2	Will the research project likely lead to improvements or have an impact on health or health care delivery within the next five years?
	How effectively has the researcher demonstrated a plan for sustaining the project beyond the Clinical Fellowship award duration, including strategies for securing additional funding and remaining functional over time?
3	Does the researcher have the capacity/experience to successfully complete the proposed project? <ul style="list-style-type: none"> <li>- Consider referencing other grants, salary awards, and prizes or recognition.</li> <li>- The number of students and staff the researcher has worked with in the past 5 years; or</li> <li>- Communication and dissemination of project outcomes of previous work.</li> </ul>
